WORK EXPERIENCE

Full-Stack Developer
Lodecom, Saint-Sulpice, France / 05-2020 – PRESENT
- Leading company efforts in completely rethinking their public reservation Web application as a fully responsive SaaS SPA
- Skills used in this position: Vue.js, Less, Element UI, Adobe XD, Draw.io (for design diagrams), Node.js, Typescript, Sequilize, BDD, TDD, git and Gitlab CD/CI

Full-Stack Developer (Internship)
Lodecom, Saint-Sulpice, France / 09-2018 – 04-2020
- Came up with and accomplished internal automation Web applications, **doubling production team efficiency** over the course of a 6-month period
- Skills used in this position: HTML, CSS, Vue.js, jQuery, Php, MySQL with PDO and TDD
- Generated new ideas for the new public reservation mobile application by learning Flutter in 2 weeks and building proof-of-concept Android and IOS applications in another 2 weeks
- Collaborated with other developers to quickly debug and fix production issues in various applications of the company

Customer Service Executive
Booking.com, Tourcoing, France / 01-2018 – 05-2018

Personal Development Activities
2016 - PRESENT
- Built my fully responsive CV app with React, Tailwind and cloud technologies
- Began translating the official Vue.js documentation
- Participated in Hackathons and Developer Conferences
- Started application development by building foreign language teaching Web and Android applications

Translator & Interpreter in Turkish, French and English
2006 – 2018
